This month the Innovation Award goes to **Aitor Uskola** ([Aitor](#)) from Spain, for his innovative [Theme Configuration module!](#)

Where are you from, and where do you live now? I am from Getxo (Basque Country, Spain). How long have you been programming? I started learning programming by myself 20 years ago and I got my first programmer job 8 years ago for a small internet company. What is your expertise? I like software and create things myself. What got you to XOOPS? When I just started learning PHP, I saw a post in PHPNuke community by w4z004 speaking about the new project XOOPS. And after looking code I decided that XOOPS was better for learning. What do you like the most about XOOPS? How easy is to implement XOOPS Security for modules. In what area of XOOPS do you contribute and why? Module development and support. If you could add one feature to XOOPS, what would it be? Only one? I think that most important that XOOPS needs is SEO, I see that some modules now have it but it would be better to have a standard way. What is your major achievement in programming that you're most proud of? I like Galeria, I learn with it PHP and XOOPS. A lot of people collaborated on it, and while some of them left, I hope that they will come back. What are your hobbies, when you're not coding? I like scuba and cycling when there is a nice weather. Your favorite dish and drink? I favorite dish is my mother's Meatballs, and as drink I like Coke. What about movies and music? I like a lot movies, if I need to select one, all the Stargate film and series. If you would have a chance for a 30 seconds commercial with a message to the world, what would you say? Don't Worry, Be Happy. If you could choose a place and time to live, what would it be and why? I like a lot where I live and hope that now is good moment. Who is the person that you would like to meet and why? Larry Page and Sergey Brin, creators of Google. What would be internet without Google?.
